Imvelo ingaphansi kwengcindezi. Ngendlela intuthukho eqhubeka ngayo kulesi sikhathi esiphila kusona, ngaphandle koshintso olutheni, mancane amathuba okuthi singafinyelela kuleli kusasa lapho igcineke kahle emhlabeni wonke jikelele. Noma luluningi ucwaningo oluhlola imthelela yezenzo zethu zamanje kwikusasa lemvelo, lusencane ucwaningo oluveza ukuthi ikusasa lemvelo esilifisayo likanjani. Kubalulekile ukuthi sibe nalo ulwazi mayelana nekusasa khona lusosiza abathathi-zinqumo kanye nabacwaningi abafuna ukuqonda ukuthi izinqumo ezithathwa abantu esikhathini samanje zingashintshwa kanjani ukuze ikusasa lijike liqhakaze.

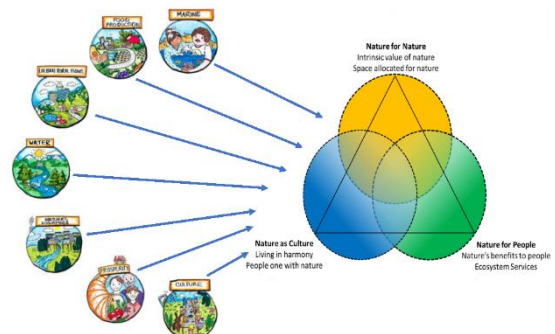

Ukuze sibe nalolo lwazi, iIntergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES), okuyiqembu locwepheshe abasebenza emkhakheni wokuqonda izimo nemifanekiso yazo, baqale umsebenzi wokwakha imifanekiso yekusasa lemvelo etshengisa ukwehlukahlukana kokubaluleka kwemvelo kubantu abahlukahlukeni nasezindaweni ezihlukahlukene. Lomsebenzi waqala ngomhlangano wokufundisana ngemibono emayelana nekusasa lemvelo namaqembu abantu abahlukene eNew Zealand ngoMandulo ngo2017, futhi ucwaningo lwakhona olusentshenzisiwe ukwakha iNature Futures Framework (NFF) luchazwe kuleliphepha (Umboniso). INFF iyindawo efana nonxantathu lapho onke amakhona emele imibono ehlukeni mayelana nokubaluleka kwemvelo:

- Imvelo yemvelo, lapho imvelo

inokubaluleka ngokwayo izimele

- Imvelo yomphakathi, lapho imvelo ibaluleke ngenxa yezinzuzo zayo kubantu
- Imvelo njengesiko, lapho abantu bebonakala njengengxenywe yemvelo.

Inhloso ye NFF ukwakha indlela elula yokubonisa ubunzima bokuqonda ukuxubaxubana kwezindlela zokubaluleka kwemvelo ebantwini. Iyindlela yokuthatha izinyathelo zokuvulela amanye amathuba okuveza imibono emisha mayelana nokwakheka kwemifanekiso yemvelo. Uma sesiqala esinye isahluko sokuphathwa kwemvelo emhlabeni wonke, iNFF yenza umnikelo oqavile ekunyuseni izinga lolwazi mayelana ngokuhlangane kwesayensi nenqubomgomo.

Ukubaluleka kwemibonakaliso eyisikhombisa eyacishelelwa kwingqungquthela yase New Zealand ngo2017 eyakha iNature Futures Framework uveza izindlela ezinathu ezibalulekile mayelana nokubaluleka kwemvelo: imvelo yomphakathi, imvelo yemvelo, nemvelo yesiko. Le mibono yokubaluleka kwemvelo iphinde inenezele kwiIPBES eholo ingxenywe yalomsebenzi.
